

Digital Citizenship – AUP (Acceptable Use Policy) – AUP Lesson on Moodle

Name:

Date:

Directions: Read the *Acceptable Use Policies*. Please answer the following questions using whole sentences and correct English conventions (spelling, grammar, punctuation, and capitalization). When you are finished answering the five questions and proofreading your answers, print this document. Make sure you select the printer in the Print dialog box before you hit Print. (HS Room 216 HP4100N)

1. What is an acceptable use policy?
2. Why do schools need acceptable use policies?
3. Which level should acceptable use policies be developed..elementary, middle, high school, or college?
4. AUPs should be designed to do what? (Give at least three purposes)
5. Watch *1-27-09 Acceptable User Guidelines* video. Would you think a video would be a better way to communicate the school's AUP to students? Why?

Read the Los Angeles Unified School District Acceptable Use Policy. Print it out and find the six parts of an AUP and label each part by circling and writing the following label: preamble, definition section, policy statement, acceptable uses section, unacceptable uses section, and violations/sanctions section. Make sure you write your first and last name on the top of these papers. Staple these two papers to this handout.
